Exp -3

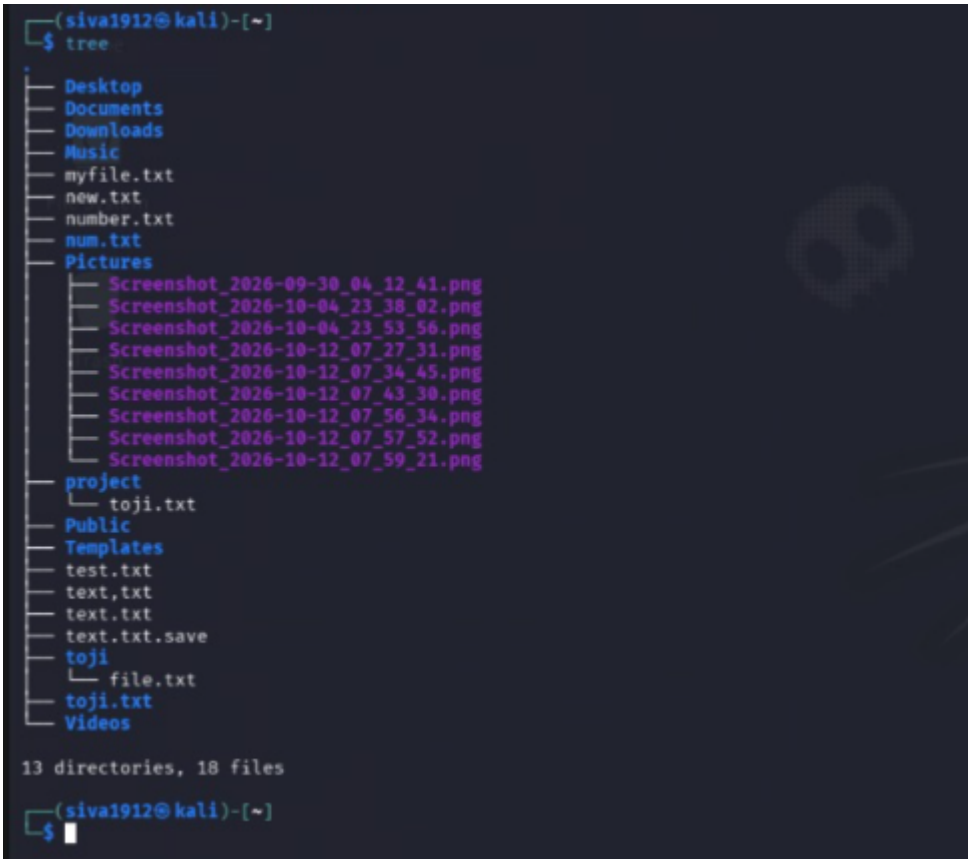

Execute and display the results for the following commands in Kali Linux Operating Systems:

Tree
Head
Tail

Aim: To execute and display the results of the `tree`, `head`, and `tail` commands in Kali Linux operating system.

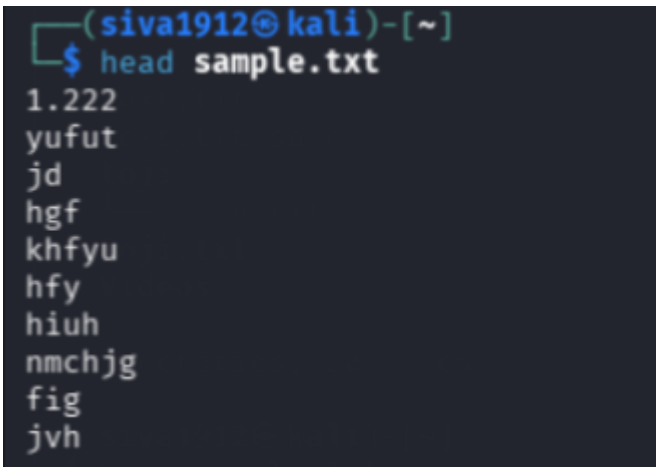

1.Tree command

Use: The `tree` command displays files and directories in a hierarchical, tree-like structure.

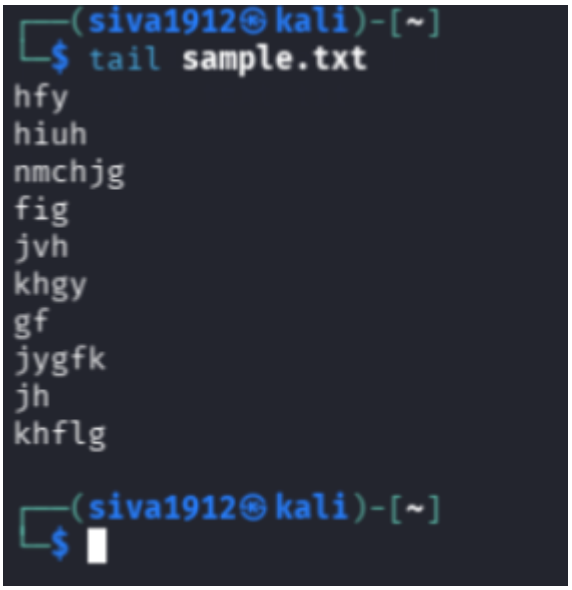

2.HEAD command

Use:The `head` command displays the first 10 lines of a file by default. Here, only five lines appear because the file contains five lines.

3.TAIL command

Use:The `tail` command displays the last 10 lines of a file by default. Here, all five lines appear because the file contains only five lines.

Result

Thus, the `tree`, `head`, and `tail` commands were executed, and their results were displayed in the Kali Linux operating system.
