Exp -2

Execute and display the results for the following commands in Kali Linux Operating Systems:

less command
more command
vi command

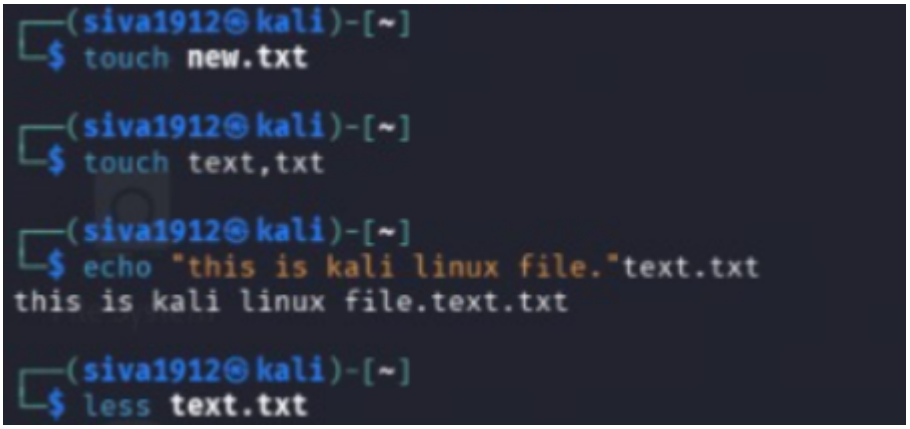

Aim:
To execute and display the results of the `less`, `more`, and `vi` commands in Kali Linux.

1. LESS COMMAND

Command:

less sample.txt

use: The `less` command is used to view the contents of a text file one page at a time. It allows moving forward and backward through the file.

2. MORE COMMAND

Command:

more sample.txt

use: The `more` command is used to display the contents of a text file one screen at a time.

3. VI COMMAND

Command:

vi sample.txt

use: The `vi` command is used to create, open, and edit text files in a terminal-based text editor.

Result

Thus, the `less`, `more`, and `vi` commands were successfully executed and their results were displayed in the Kali Linux operating system.
