Exp - 6

Execute and display the results for the following commands in Kali Linux Operating Systems:

i) Touch
ii) Pwd
iii) Wget

Aim

To execute and display the results of the `touch`, `pwd`, and `wget` commands in Kali Linux operating system.

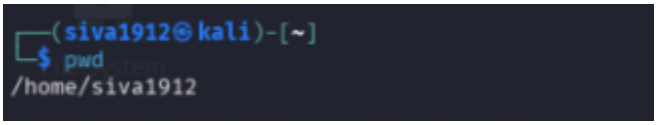

i) TOUCH Command

Use: The `touch` command is used to create an empty file. If the file already exists, it updates its modification timestamp.

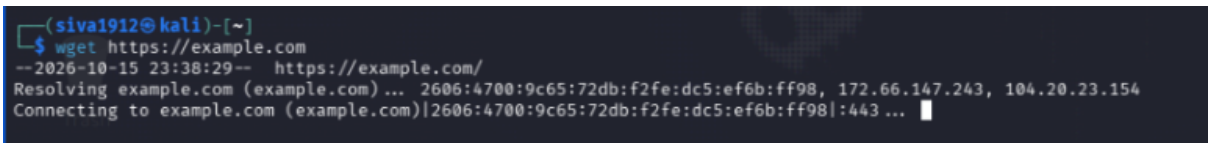

ii) PWD Command

Use: The `pwd` (Print Working Directory) command displays the full path of the current working directory.

iii) WGET Command

Use: The `wget` command downloads files or web content from the internet using a URL.

Result

Thus, the `touch`, `pwd`, and `wget` commands were executed, and their results were displayed in the Kali Linux operating system.
