Exp - 5

Execute and display the results for the following commands in Kali Linux Operating Systems:

i) Uptime
ii) Date
iii) Mv

Aim:

To execute and display the results of the `uptime`, `date`, and `mv` commands in Kali Linux operating system.

i) UPTIME Command

Use: The `uptime` command displays the current time, how long the system has been running, the number of logged-in users, and system load averages.

ii) DATE Command

Use: The `date` command displays the current system date, time, and time zone.

iii) MV Command

Use: The `mv` command is used to move files or directories from one location to another. It can also be used to rename files and directories.

Result

Thus, the `uptime`, `date`, and `mv` commands were successfully executed, and their results were displayed in the Kali Linux operating system.
