Exp -1

Execute and display the results for the following commands in Kali Linux Operating Systems:

rm command
users command
tree command

Aim:
To execute and display the results of the rm, users, and tree commands in Kali Linux.

1. RM COMMAND

Command:
rm sample.txt

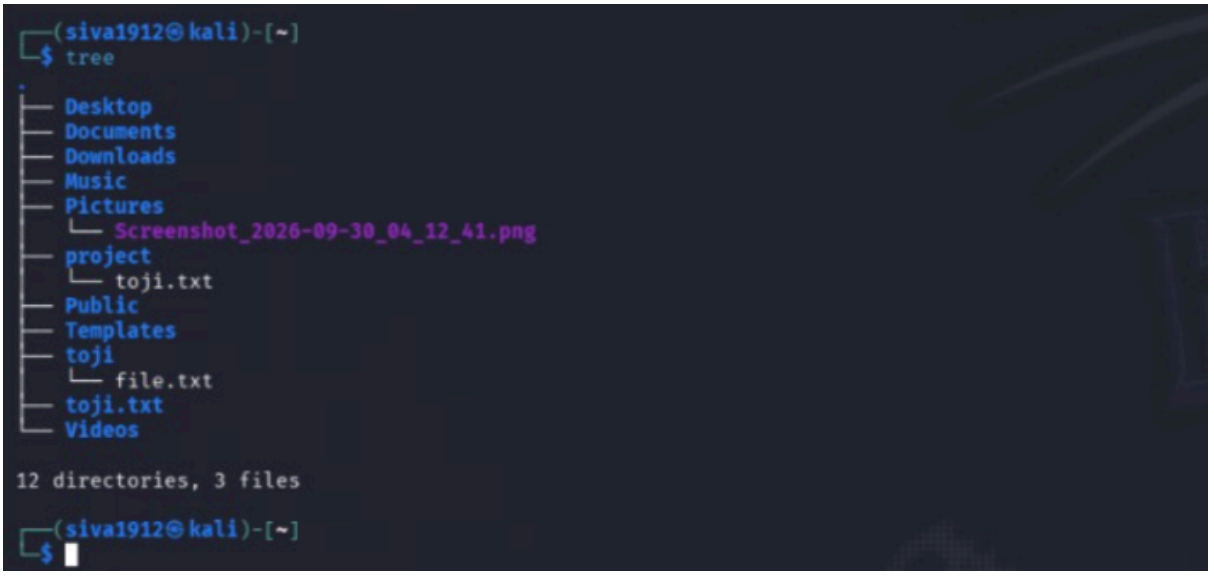

Use: The rm command is used to remove or delete files and directories.

2. users command
Command:
users
use: displays the names of users currently logged into the system.

3. tree command
Command:
tree
use:Tree – displays files and directories in a tree-like hierarchical structure.

Result:
Thus, the rm, users, and tree commands were successfully executed in Kali Linux and their results were displayed.
